

FOR IMMEDIATE RELEASE

## **Calculated Cakes Updates *TieredCaker* to Version 2.0 on iPhone/iPad/iPod touch**

The Eagerly Anticipated Update to the Popular App *TieredCaker* is Now Available on the App Store

NORTH LITTLE ROCK, AR – March 16, 2014 – Calculated Cakes announced today that the 2.0 update to their popular tiered cake planning app, *TieredCaker*, is now available exclusively for iPhone, iPad, and iPod touch. *TieredCaker* is an indispensable tool for anyone needing to plan or cut a tiered cake.

Using *TieredCaker*, cake artists, event planners, and DIY brides and grooms to be, can find the perfect tiered cake for their event. Enter the number of servings you need into *TieredCaker*, and immediately see all of the possible cakes that could be used. *TieredCaker* displays interactive 3D models of each cake allowing users to change tier colors and heights to really get a sense of what their cake is going to look like. When it comes time to cut the cake, *TieredCaker* provides cutting guides for every tier.

“We’re super excited to be releasing this update” said Chris Flesner, founder of Calculated Cakes. “The ability to see and interact with 3D models of your cakes is not only incredibly helpful when planning a cake, it’s also really fun!”

*TieredCaker* is now available for \$19.99 in the U.S. and is priced accordingly in other regions. *TieredCaker* is available world-wide on the App Store for iPhone, iPad, and iPod touch.

Please visit [tieredcaker.net](http://tieredcaker.net) for more information, including a video and screenshots of the app, and [calculatedcakes.com](http://calculatedcakes.com) for more company information.

Calculated Cakes, an independent software firm based out of North Little Rock, Arkansas, was formed in 2012 by Chris Flesner and Jennifer Flesner for the purposes of creating innovative, and much-needed software for cake artists.
